Self-management skills Kate's Corner

Afternoon everyone,

It has been a brilliant week seeing the huge amount of fun had with the Winter Olympics theme. I loved watching and joining in with the classes doing the whole school fitness workout! Classes have shown a huge amount of effort towards their lessons and have been earning points towards an Olympic competing country.

The Winter Olympics activities have been a huge amount of fun!

The college residential meeting went ahead last week after school but please do not be concerned if you missed it. Packs will be coming home shortly and if you have any questions please get in contact with Emily or myself.

College Residential packs will be coming home soon.

Have a great long weekend!
Kate

Skills Builder Challenge Problem Solving

What materials could we use to make things instead of plastic?

Many people are concerned about the amount of plastic littering the streets, parks, rivers and beaches. Some common household items are now being made out of a different material. For example in the UK, drinks companies have to use paper straws instead of plastic.

Have a look around your home - which items are made of plastic? Can you come up with alternative materials these items could be made out of? What are the pros and cons of using an alternative material?

Share your ideas with another member of your household - can they think of others?

Olympics quiz

Singapore and the UK went head-to-head in an Olympics quiz, it was great fun! Singapore won Gold, and the UK won Silver and Bronze medals.

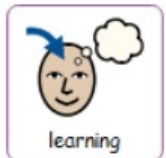

This week, D16 have been thinking about problem solving. Harjinder worked out how to take crinkly paper out of a bottle. Sophie completed puzzles. For the Winter Olympics, Lee and Leon used hoops and cones in the classroom to practise throwing skills.

A16 hosted a cream tea, everyone had a great time. They made some brilliant scones and took orders for drinks. It was lovely for everyone to catch up with different friends.

F16 enjoyed a trip out to River Bourne Community Farm. We walked around the farm where we came across lots of different animals! We were able to pet some of the animals so long as we were kind and gentle.

M16 enjoyed learning about the food that the rabbits and guinea pigs eat on the farm. We cut the food up and fed the animals.
